No. 1 of 1911—12.

FROM,

KHAN BAHADUR

GULAM MUSTUPHA.

KAMDAR

BAJANA STATE.

TO,

MAJOR N. S. COGHILL.

POLITICAL AGENT,

JHALAWAD PRANT.

WADHWAN CIVIL STATION.

13475C

BAJANA, 5th APRIL 1911.

SIR,

I have the honour respectfully to submit the Annual Administration Report of the Bajana State for the year 1910-1911.

CHAPTER I.

GENERAL AND POLITICAL.

2. The State ranks in the 4th class in the province of Kathiawar and comprises an area of 183.12 square miles and the population was 10279 souls according to the census of 1901 but fortunately there has been an increase of 908 souls according to the last census of 1911 and so now the population of the Taluka is 11,187 souls. The gross revenue of this state as based on an average of past five years is Rs 135428-0-0.

3. The annual amount of Peshkasi including the amount of Ahmedabad Sukhdi, is Rs 8037-10-0 (The Peshkashi is Rs7960 and the amount of sukhdi is Rs. 57-10-...), and is paid at the Rajkot Agency Treasury.

4. The present Chief Malek Shri Jiwankhanji Nasibkhanji is 63 years old but looks much younger owing to his natural built constitution and is Musalman Jat by caste. He had a grown-up son, the heir-apparent, Kumar Shri Phirozkhanji, who had received his education in the Rajkumar College at Rajkot, but unfortunately for the Chief and to the state, he breathed his last on the 15th December last at the prime age of 27 years having

suffered from lever complaint, fever &c which lasted for about 4 or 5 months. It is the most sad bereavement to the Chief but there is a great consolation to him that the deceased Kumar Shri Phirozkhanji has left after him a son aged about 15 months as was reported in para 5 of the last year's report.

5. During the year under report, neither marriage nor any other kind of celebration has been undertaken.

Owing to the sad demise of the Kumar Shri Phirozkhanji in December last, your honour did not think it advisable to encamp in Bajana this year but previous to his death, your honour had encamped at Degam for two days in November last.

Mr. Rendall, Judicial assistant to the Agent to the Governor and Mr. Luck, Superintendent Agency Police had also their Camps this year in Moti Majithi for some days in December last while they were on their tours.

6. The Police Superintendent of this state Mr. Praldji Trikamdas had to resign his post owing to his continued illness. No other change in the superior establishment of the State has taken place during the year under report. It is a matter of satisfaction that all the Officers have done their duties to the entire satisfaction of the Chief and the undersigned.

CHAPTER II

Administration and Revenue.

7. With regard to the Revenue collection, I have the honour to state that there has been a Bhagbati system instead of cash assessment from the beginning and as it is practicable and some-what beneficial to the State and also most suitable to the people in general, it is kept in force without any change in its former method.

8. It is a matter of satisfaction to note that certain area of waste lands has been made to cultivate this year, and every endeavour is being made to do so every year. But it is apparent that it would take years to get all the waste lands which had been deserted by the dire famine of *Chhapania* cultivated.

The settlement Department has been doing its work steadily and satisfactorily.

During the year under report, Rs 460 were paid as *takavi* to some cultivators, as almost all the villagers situated on the eastern side of Bajana are very poor and require to be taken care of.

CHAPTER III.

Legistation.

9. The laws that are in force in this State are shown in Appendix II herewith submitted.

Protection.

10. No Military force of any description has been maintained in this state. The Appendix No. III is therefore kept blank.

11. The number of Foot and Mounted Police serving in this state and their maintenance charges are shown in Appendix IV herewith attached. The foot-police who are stationed in thanas have been supplied with country swords and those who are guarding treasury and Jail &c, have been provided with English Muskets. The Mounted Police are given swords and lances. Their ratio to population and area is one to 82 souls, and 14·7 square miles respectively.

12. The following statement will show the work done by the Police during the year under report.

Year	No. of offences committed	No. of arrested	No. of accused for trial	No. of stolen property	Amount of stolen property	Amount of stolen property recovered	Remarks.
1909-10	36	38	35	32	1008-11-3	690-4-3	
1910-11	37	38	38	31	442-4-3	202-12	

The full particulars of the above stated figures have been given in Appendices V and VI.

13. No offence of a serious nature was reported to have been committed in this state during this year and the work done by the Police was most satisfactory. The total number of the village police is the same as was last year viz. 92. They were all on service tenure and their work was also satisfactory.

Criminal Justice.

14. The following table will show the work done by the Magistrates.

Name of Court.	1909–10			1910—11		
	No. of cases reglsterd	No of cases decided	No of cases under trial.	No of cases regstered	Mo of cases decided.	No. of cases under trial.
F. c. mag istrate.	72	67	5	57	50	7
T. c. mag istrate	16	16	o	15	15	0
Total:	88	83	5	72	65	7

The details are given in Appendices Nos. VII & VIII.

It is a matter of much regret to note here that the 3rd class Magistrate's court which was opened last year for the special purpose of making the late Kumar Shri Phirozkhanji acquainted with the work of the Magistrate's work has to be closed from the time he fell ill in October last.

As for the work of the Appellate Court, the particulars are given in the Appendix IX herewith attached.

Civil Justice.

15. There is only one Civil Court of the Original jurisdictiou. The Nyayadhish hears suits upto the value of Rs 2000 and the Appellate Court has full jurisdiction viz of Rs. 10000. There was neither increase in the number of courts during this year. There were 84 suits of the ag. greate value of Rs. 6722-8-o filed in tnis year and 7 suits were in balance. Out of these 73 suits have been disposed of. In the previous year 61 money suits of the aggregate value of Rs 4362-0-o had been filed and 8o suits in all were disposed of.

16 Sixty two applications for execution of decrees of the aggregate value of Rs 3511-8-9 were made in the Court during the year under report and eleven applications were in balance. Out of these 65 applications were disposed of.

The full particulars of the original suits and the applications for execution of decrees are shown in appendices Nos. X and XI. which show the increase in the file of the original suits and the applications for execution of decrees owing to the season being good.

Extradition.

17 There was no case of extradition from and to this State during the year under report.

Prison

18 Although the present Jail building is good and sufficiently ventilated and well-accommodated both for male and female prisoners, being situated in the heart of the town and close to the Darbar's residence, the Chief intends to build a new building according to the modern style in a suitable locality as soon as practicable.

The particulars of the number of prisoners and the amount of expenditure incurred toward their maintenance during the year under report are shown in appendix XIII.

With the exception of the malarious fever which prevails at the end of the rainy season throughout the province, no other kind of disease was amongst the prisoners this year.

Registration.

19 146 Documents were registered in the Hazur Court during the year under report; the number of documents registered were much greater than that of the previous years and it is due to the understanding of the people who have now learnt about the usefulness of registration of their documents. These particulars are given in appendices Nos. XIV and XV herewith submitted.

Municipal Administration.

20 There is no regular Municipality in this town as it is the old fashioned, awkwardly and narrowly built, mostly with mud walls; the roads and streets are also very narrow, with such a state of things, sanitation and conservancy of the town are not neglected by expending a handsome sum of money yearly by engaging a gang of sweepers &c which will be seen by referring the Appendix No. XVI.

The inhabitants including the Banias are all in a poor condition and as the Railway communication not being at hand, no large amount of traffic is going on here; but it is expected that the commercial business, would be, by degrees, improved and extended in future owing to the construction of the Ginning Factory here and a substantial bridge having been built across the runn. This runn was an impediment and a kind of hindrance for the loaded carts to cross it almost all throughout the year round. Had their been a Railway station here, the condition of the merchants would have been much improved but to their bad luck it cannot be expected.

CHAPTER IV.

Production and Distribution.

21. The total rainfall during the year under report was 14-18 as against 32-40 in the previous year (appendix XVII is herewith submitted). There was no regular monsoon this year. It never rained in torrents as usual but whenever it fell, it was in showers only. With such a scanty rain this year, it was feared that this year would be very bad and unprofitable to a great extent, but it is gratifying to note that the Almighty God has favoured the State with good produce of the cotton-pods to our satisfaction, though the quantity of grain being less than usual.

It appears that the slow and steady raining in showers percolated the soil hence the retention of the moisture made the cotton crops to grow up in time. In short the outturn of cotton crops this year has been most satisfactory. At the same time it is to be reported with great pleasure that owing to the good luck of the Chief, the winter frost, which was so severe throughout the Bombay Presidency as to make a damage of lacs of rupees and most people were reduced to starvation, has done no damage whatsoever in this Taluka. This is attributed to scanty rainfall as the cotton pods plants were just ripe when the frost fell down.

With regard to the water supply, I have the honour to report, that it is sufficient in some of those villages where rainfall was as usual, but at Bajana itself and in some of the eastern villages, water has been almost finished and kutcha wells have been dug.

Fortunately none of the destructive insects made their appearance throughout the state during the year, nor did the winter frost do any damage to the crops as stated above.

As for the fodder for the cattle, I have the honour to report that it is sufficient to the want of the cultivators as it had been produced more than sufficient last year.

22. The average temperature was 116 degrees the highest and 49 degrees the lowest this year. The malarious fever was in a very mild form owing to the less quantity of rainfall. Fortunately no other kind of epidemic was in this Taluka during the year under report, though there were some cases of small-pox at-random but they were not of virulent type and the general health was good throughout the year.

23. The condition of the labouring classes was much more satisfactory than before. As since the establishment of the Ginning Factory, they get higher wages and their means of other earnings are sufficient to their wants as stated in the last year's report. Besides this, almost all the coolies make salt in the Government Kharagodha salt works. In short the people of the labouring classes are happier than those of the middle class.

The prices of the staple-food remain steady with those of the last year. The particulars are shown in the appendix XVIII.

24. There is no forest in this state.

25 There being no railway communication here nor at any big villages of the state no trade of any importance is carried on. No octroi duty is therefore levied on any articles of export or import; it is impossible to give their figures.

26. It is a matter of much regret for us that the vast building which the Chief has built for the accommodation of all the offices of the state and to be named after your good Sir, with the sanction of the Government (It has already been obtained) could not be opened as yet owing to the successive mournings at our H. M. late lamented Sovereign Edward VII and that of our most beloved, lamented Kumar Shri Phirozkhanji who passed away in December last. But it is hoped that the building would be opened soon before your honour's departure on leave.

Appendix No. XIX shows the expenditure incurred in the original works and the repairs to the state buildings.

27. There is a branch post office here and a sub-branch office in the village of Akhiana.

28. There is no mint in this state. British coins are current throughout the Taluka.

29. The general condtion of the people is on the whole good in this Taluka throughout the year as mentioned above.

30. As for the liabilities of the state, I have the honour to report thrt as detailed in para 30 of the last year's report the debts of the private bankers were reduced from about more than two lacs of Rupees to Rs. 97602 only. But I am now glad to report that within a short time the sum has again now been reduced to Rs. 34000 with the exception of

Jibhai Keval of Viramgam; whrse decretal amount of Rs. 14957-0-2. This Crditor has preferred an appeal to the Judicial Assistant having dis satisfied with Your honour's judgment and the appeal is pending in that Court. As Mr. Jibhai Keval's firm has failed his trustees seen to try to prolong the hearing of the appeal. Then taking this decrital amount into accouut, in all Rs. 48957 remain to be paid upto date to the private creditors.

Regarding the Government loan, I have the honour to report with great pleasure that whatever sum of money, remained to be paid to the Government treasury at the time of submitting the last year's Administration Report viz Rs. 45000 exclusive of interest has already been paid up with interest during the year under report. Your honour will, thus see, that the State has been able to pay almost a lac of rupees both to the Government and to the private creditors exclusive of Government tribute amount, the Government contribution and other maitenance charges of the State. From these fact, Sir, it is but maintest that the administration of the State has been improved to Your honour's entire satisfaction within the last few years.

31. Tho general condition of the cultivators is good. Thoso who are in poor circumstances are well tooked after by paying the required taccavi amount &c. Many cultivators have all ready been restored to their former prosperous condition

32. There is no liquor shop in Khalasa villages of the Taluka. In the Bhayati village of Savlas, a man distils liquor in small quentity and especially on holidays.

There is a shop of opinm in the town of Bajana itself. The appendix XXI is submitted herewith.

CHAPTER V.

Revenue and Finance.

33. The gross revenue of the State for year ending the last Devali (November last) is Rs. 1,94751-10-3 as against Rs. 1,45550-6-2 in the previous year.

The following table shows the particulars.

Year.	Vaje.	Vero.	Saker.	Outstandings.
1909-10	72831-14-10	14039-0-1	2578-8-0	3309-4-0
1910-11	121504-6-5	14388-7-6	2702-0-0	4262-4-2

CHAPTER VI.

Vital Statistics.

34 There is dispensary in the town of Bajana named after the last Political Agent Major Wodehouse. The working of this Dispensary together with the expenditure incurred towards its maintenance during the year under report is shown below as well as in the subjoined appendix No. XXII. Great care is taken for the sanitation of the people in general.

Year.	Indoor patients.	Out-door patients.	Expenditure. Rs.	A.	P.
1909-10	0	890	706	8	10
1910-11	0	1010	742	8	4

35. The Vaccination work is done by the Agency Vaccination Department and the following statement shows the work done by it during

the year under report. The figures shown in this statement are supplied by the Department concerned yearly.

Year.	Primary Vaccination.	Revacci-nation.	Successfully vaccination.	Unsuccess-fully vacci-nated.	Expenditure.		
1909-10	284	0	284	0	119	15	11
1910-11	420	0	420	0	98	3	11

36. The total number of births during the year under report was 344 as against 358 in the previous year and that of the deaths was 257 as against 208 in the previous year.

37. By the grace of the Almighty, the Taluka was altogether free from any kind of epidemic such as Cholera, plague &c during the year under report.

CHAPTER VII.

Education.

38. There are seven Vernacular schools in the Taluka including the Girls' school at Bajana. Out of these schools, there is a Taluka school at Bajana where boys are taught upto the seventh standard in Gujarati and is directly under the control of the Agency Educational Department. Though the financial condition of the State was not satisfactory in the year 1904-05; yet free education was commenced to be given to the boys and girls in these seven schools from that year and at present also free education is imparted. The particulars regarding the number of students &c is shown in Appendix XXV herewith submitted.

CHAPTER VIII.

Miscellaneous.

39. There is no printing press here and a library building is under construction.

The people of this Taluka are poor and peaceful with the exception of a few who are ready to make all sorts of mischiefs and foul deeds, hence they require to be dealt with stringent measures.

In conclusion, I must respectfully beg to offer on behalf of our Chief and myself our heart-felt thanks to your honour and our worthy Agent to the Governor for the kindness with which we have been treated.

I have the honour to be
Sir.
Your most obedient Servant
G. MUSTUPHA.
KAMDAR

NO, 1 of 1912-13.

FROM,

KHAN BAHADUR
GULAM MUSTUPHA,
KAMDAR
BAJANA STATE.

To,

MAJOR W. M. P. WOOD,
POLITICAL AGENT,
JHALAWAD PRANT.
WADHWAN CIVIL STATION.

BAJANA, 4th April 1912.

SIR,

I have the honour respectfully to submit the Annual Administration report of the Bajana State for the year 1911-12.

CHAPTER I.

General and Political.

2. This State ranks in the 4th class in the Province of Kathiawar and comprises an area of 183.12 square miles and the population was of 11718 souls according to the last census of 1911. The gross revenue of this State as based on an average of past five years is Rs. 162704-9-6.

3. The annual amount of Peshkasi including the amount of Sukhdi is Rs. 8037-10-0 (rupees 7980 as tribute and Rs. 57-10-0 as Sukhdi), payable at the Rajkote Agency Treasury.

4. The Darbar Malek Shri Jivankhanji Nasibkhanji the present ruling chief is aged 64 years but looks much younger owing to his natural built constitution and is Musalman Jat by caste. Unfortunately for himself he has no heir-apparent as after the death of his grown-up son his grand-son about fifteen months old then, as shown in the last years' report also, unfortunately died on 14th April 1911.

13475C

5. During the year under report neither marriage nor any other domestic celebration has taken place. Still however the year has been the most auspicious and ever to be remembered by all and each not only in this Taluka but throughout India in as much as the celebration of the Coronation of Our Most Gracious and beloved Emperor George V took place in this year. And as it was to be celebrated with eclat and rejoicings to enable the people to know what all these meant we did our best and celebrated the same on such a grand scale as was unknown to the people of this Taluka. The particulars of this celebration having been twice reported to the Agency it seems unnecessary to recapitulate the same here. But to enable us and the Taluka people to remember the auspicious day of the 12th December 1911 it has been decided to observe this day as a general holiday throughout the Taluka and feed the poor available in the afternoon at the expense of the State. The chief and myself considered ourselves to be very fortunate to see that such an auspicious occasion was celebrated in our time. We all pray to God for the long life of our Emperor and His beloved family.

The touring season of the year being a famine one no officer could favour the State with his regular camp but the State had a good fortune to welcome your honour in company with the late Agent to the Governor Mr. Claude Hill on 4-11-11 on a short visit, and again to welcome your honour on 4th February 1912. No other officer of the Agency visited this Taluka this year except the Agency Surgeon Captain W. M. Houston who came here for a few hours on 18-2-1912 for examining vaccinated children.

6. With the exception of the change of the Police Superintendent in May last and of the Nyayadhish on 29th February last, no other changes were made in the high officials of the state during the year under report. It is a matter of satisfaction that all the officers have done their duties to the entire satisfaction of the chief and the undersigned.

CHAPTER II,

Administration and Revenue.

7. With regard to the revenue collection I have the honour to state that there has been a Bhagbati system instead of cash assessment from the beginning and as it is practicable and somewhat beneficial to the State and also most suitable to the people in general it is kept in force without any change in its former method.

8. It is a matter of great remorse that our attempts in the direction of bringing certain areas of waste lands under cultivation that were commenced in the previous years have been retarded during the year under report owing to the present famine and all our hopes to bring all the waste lands under cultivation have been put off with great regret.

The situation created by the famine has in one way tested our abilities to meet it and I am very glad to note that by careful watch from the beginning of my career over the revenue affairs and by systematic and rigid economy I have been enforcing in every branch of the administration, I have been able, by the grace of the Almighty God, to such a large sum of money as has placed me in a position not to put the State in a necessity to borrow any loan from either the Government or any banker this time and we have been able to face this dire calamity satisfactorily. It is not only that we have been paying Taccavi to the cultivators for the maintenance of themselves and their cattle but we have advanced enormously large sums of money beyond our power, under Agency Notification No. 84 of 1899, to the Garasias and Bhayats for their maintenance. This sum advanced to the latter comes to 29427-0-0 and rupees 9371-0-0 to the former upto date, and I dare say that this sum will not be sufficient as there are yet about three or four months to pass and many of the cultivators will certainly be in want of more money not only for the maintenance of themselves and their bullocks but for the purchase of seeds also at the beginning of the next rainy season. It is now to be conjectured that had the money been not saved by working zealously and economically the State would undoubtedly have been placed in a very bad position and could not have helped itself without borrowing money from our benign Government. From all these facts it will be seen, Sir, that the State which was so much over-burdened with debts a few years ago has now become able comparatively in a short time of five years nearly to clear off heavy debts of about 4½ lacs of rupees and to save a handsome sum of money by which it is facing these difficulties with patience.

We had opened test works in four different places in the Taluka but to our wonder none has come to work till now. It will not be out of place if I beg to mention here that one might conjecture that by advancing money to the people the State might, later on, be a gainer by charging heavy interest from them but this is not the case because this State being a Mahomedan one no interest is allowed to be charged and whatever small amount of interest anticipated to be received will not be of any use to it at all, hence the State has advanced such an enormous

sum of money not for any pecuniary gain but to save its people from starvation and partly to obey Agency order. And it is to be noted that instead of any gain the State might be a loser in some respects because as a rule many of the cultivators, (specially coolies) surely desert the Taluka and would not be able to repay the full sum they have received.

The Settlement Department has been doing its work steadily and satisfactorily but the present time being of distress the work has been slackened.

CHAPTER III.

Legislation.

9. The laws that are in force in this State are shown in Appendix II herewith submitted.

Protection.

10. No military force of any description has been maintained in this State. The Appendix No III is therefore kept blank.

11. The number of foot and mounted Police serving in this State is the same as in the past year. This and their maintenance charges are shown in Appendix IV herewith attached. The foot police who are stationed in Thanas have been supplied with country swords and those who are guarding treasury and jail etc have been provided with English muskets. The mounted Police are given swords and lances; their ratio to population and area is one to 81 souls and 14.7 square miles respectively.

12. The following statement will show the work done by the Police during the year under report.

Year.	No. of offences committed.	No. of arrested	No. of accused for trial	No. of stolen property.	Amount of stolen property.	Amount of stolen property recovered	Remarks.
1910-11	37	38	38	31	442-4-3	202-12-0	
1911-12	42	52	38	31	427-15-0	218-10-0	

The full particulars of the above stated figures have been given in Appendices V and VI.

13. No offence of a serious nature except one of a murder (it was tried by the Sessions Court at Rajkote) was reported to have been com-

mitted in this State during this year and the work done by the Police was most satisfactory. The total number of the village Police is the same as was the last year viz 92. They were all on service tenure and their work was also satisfactory.

Criminal Justice.

14. The following table will show the work done by the magistrate.

Name of Court.	1910-1911			1911-1912		
	No. of cases registered	No. of cases decided.	No. of cases under trial.	No. of cases registered	No. of cases decided.	No. of cases under trial.
F. C. Magistrate's Court.	72	65	7	76	68	8

The details are given in Appendices Nos. VII and VIII.

As for the work of the appellate court the particulars are given in the Appendix No. IX herewith submitted.

Civil Justice.

15. There is only one civil court of the original jurisdiction. The Nyayadhish hears suits upto the value of Rs. 2000 and the appellate court has full jurisdiction namely of Rs. 10000. There was no increase in the number of courts during this year. There were suits of the aggregate value of Rs. 1315-11-9 filed in this year and 18 suits were in balance. Out of these 39 suits have been disposed of. In the previous year 84 money suits of the aggregate value of Rs. 6722-8-0 had been filed and 73 suits in all were disposed of.

16. Twentytwo applications for execution of decrees of the aggregate value of Rs. 2239-4-8 were made in the Court during the year under report and 8 applications were in balance. Out of these 28 applications were disposed of.

The full particulars of the original suits and the application for execution of decrees are shown in Appendices Nos. X and XI respectively.

which show the decrease in the number of both and this is due to the year being of famine.

Extradition.

17. There were nine persons extradited from this State and one was extradited to it during the year under report.

Prison.

18. Although the present jail building is good and sufficiently ventilated and well accomodated both for male and female prisoners being situated in the heart of the town and close to the Darbar's residence the chief intended to build a new building according to the modern style in a suitable locality this year but owing to the famine no work of public utility could be undertaken.

The particulars of the number of prisoners and the amount of expenditure incurred towards their maintenance during the year under report are shown in Appendix No. XIII.

There being no rain during the last season the malarious fever was rare and no other kind of disease was amongst the prisoners this year.

Registration.

19. 418 documents were registered in the Hazur Court during the year under report, the number of documents registered was much greater than that of the previous years and it is due to the understanding of the people who have now fully learnt about the usefulness of registration of of their documents. These particulars are given in Appendices Nos. XIV and XV herewith submitted.

Municipal Administration.

20. There is no regular municipality in this town as it is an old fashioned, awkwardly and narrowly built town. Almost all the buildings are of mud walls. The roads and streets are very narrow but even with such a state of things sanitation and conservancy of the town are not neglected. A handsome sum of money is yearly expended after it by engaging a gang of sweepers &c. which will be seen by referring to the Appendix No. XVI.

CHAPTER IV.

Production and Distribution.

21. The total rainfall during the year under report was 5'.4" as against 14'.18" in the previous year (Appendix XVII is herewith submitted. Had this small quantity of 5'.4" fallen at a time it would have given some relief but drops fell after longer intervals of each other; hence it proved useless. There has been a drought and complete failure of monsoon here this year. With the help of loans and Taccavi advanced by the State, as narrated in paragraph 8, the agriculturists passed their days happily till now and many of them have sown Juari, Wheat & Barley in the limit of those villages in this Taluka where there is sweet water which afforded them much relief for themselves and their cattle.

With regard to the water supply I have the honour to report that as reported in the last year's report tanks at Bajana and in some of the eastern villages had been nearly dried up; hence a great deal of difficulty is experienced for drinking water in these villages and the tanks of those villages where there was ample water last year have also been dried up this year, and a great deal of difficulty is endured by all and each in this Taluka for persons and cattle. Those kacha wells which provided sweet water in almost all the villages are turning brackish water day after day and fresh wells are dug every day. It is greatly feared how these two or three months will pass away without a good supply of drinking water. Our Darbar Saheb is willing to expend any amount of money if any one comes forward and makes an artificial well by boring with success but alas nobody comes forward for it.

The monsoon crops having totally failed no appearance of the destructive insects was noticed in the Taluka during the year. There was no winter frost also this year and even if it had fallen there were no crops to be damaged.

As reported in the report of the last year fodder had been abundantly produced more than wanted; hence many of the cultivators utilized it during this year and those who were in want of it have sown Juari and Barley. In the winter also they sowed Wheat and Barley and now they are sowing Chhasatias (a summer crop). It will thus be seen, Sir, that any how all the cultivators could save their cattle till now and it is hoped they might pass away the next two months in the same way.

22, The temperature was 116 degrees the highest and 49 degrees the lowest this year. The malarious fever did not at all appear, there be-

ing complete drought throughout the monsoon. Fortunately no other kind of epidemic was in this Taluka during the year under report and the health was good through-out the year.

23. The condition of the labouring classes inspite of the present famine has remained fairly satisfactory. No scarcity of labour is experinced even in this bad time and the wages have been somewhat higher than those in the previous years. Almost all the coolies here manufactured Salt in the Government Kharagoda Salt works hence these and the other people of the labouring classes are happier than those of the middle class.

Owing to the drought the prices of the Staple food have increased about 25 p. c. more than in the previous years but for the last five months the prices are steady. The particulars are shown in the Appendix No. XVIII.

24. There is no forest in the State.

25. There being no railway Communication here nor at any big village of the State no trade of any importance is carried on. Hence no octroi duty is levied on any articles of export or import; it is therefore impossible to give their figures here.

26. The vast building which has been built for the accommodation of all the offices of the State and which is named after Major Coghill with the sanction of the Government was opened for its intended use during the year under report.

Appendix No. XIX shows the expenditure incurred in the original works and the repairs to the State buildings.

27. There is a branch post office here and a sub-branch office in the village of Akhiana.

28. There is no mint in this State. British coins are current throughout the Taluka.

29. The general condition of the people is on the whole good in this Taluka throughout the year.

30. As for the liabilities of the state that since after the last year's report Rs. 21633-0-0 have been paid off during the year under report thus leaving only Rs. 12367-0-0 with the exception of Jibhai Keval of Viramgam whose decretal amount is of Rs. 14957-0-2. I could have already seen my way to settle the affair with this creditor had the matter been in the hands of the creditor himself but his firm having failed his

his trustees being fond of litigation preferred an appeal to the Judicial Assistant who decided the appeal to the great prejudice of the State involving fresh settlements of accounts on principles highly objectionable and so the State is compelled to prefer an appeal to the benign Bombay Government. If the Government in this appeal upholds the decree passed by Major Coghill which he has done after a very careful inquiry in the whole transaction the State's liabilities to the private creditor in all will remain of Rs. 27324-0-0 upto date. With the exception of the latter banker, negotiations have been entered into with all the other creditors to the effect that they would get yearly instalments. Looking to this and the sum which has been saved this amount is but very trifling.

Besides, the amount of tribute and that of the general falas are paid regularly from time to time and the state servants are also paid their Salaries every month without any hitch, your honour will thus see that the administration of the State has been wholly satisfactory and has reached to a higher standard.

31. The general condition of the cultivators has been good, though slightly affected by the famine; those who are in poor circumstances are well looked after by paying them the required Taccavi amounts &c.

32 There is no liquor shop in Khalsa villages of the Taluka. In the Bhayati village of Saxalas a man distils liquor in small quantity and especially on holidays.

There is a shop of opium in the town of Bajana itself. The appendix No. XXI herewith submitted will show the particulars thereof.

CHAPTER V.

REVENUE AND FINANCE.

33. The gross revenue for the year ending the last Divali, (i. e. November last), is Rs. 236040-2-8 as against Rs. 194751-10-3 in the previous year. The increase is due to the high prices of cotton pods.

The following table shows the chief particulars.

Year.	Vaje.	Vero.	Sakar.	Outstandings.
1910-11	121504-6-5	14388-7-6	2702-0-0	4262-4-2
1911-12	163344-14-11	14285-5-6	8219-0-0	4541-5-8

CHAPTER VI.

Vital Statistics.

34. There is a Dispensary in the town of Bajana named after the late Political Agent Major Woodehouse. The working of the Dispensary to-gether with the expenditure incurred towards its maintenance &c., during the year under report is shown below as well as in the subjoined Appendix No. XXIII. Great care is taken for the sanitation of the people in general.

Year.	Indoor patients.	Outdoor patients.	Expenditure. Rs	As.	Ps.
1910-11	0	1010	742	8	4
1911-12	0	2857	461	9	1

35. The vaccination work is done by the Agency Vaccination Department and the following statement shows the work done by it during the year under report. The figures shown in this statement are supplied by the Department concerned yearly.

Year.	Primary Vaccination	Revaccination.	Successfully vaccination.	Unsuccessfully vaccination.	Expenditure Rs.	As.	Ps
1910-11	420	0	420	0	98	3	11
1911-12	444	0	444	0	98	3	11

36. The total number of births during the year under report was 417 as against 344 in the previous year and that of the deaths was 192 as against 257 in the previous year.

37. By the grace of the Almighty, the Taluka was altogether free from any kind of epidemic such as cholera, plague &c., during the year under report.

CHAPTER VII.

Education.

38. There are seven vernacular schools in the Taluka including the girls' school at Bajana. Out of these schools, there is a Taluka School at Bajana where boys are taught upto the seventh standard in Gujrati and is directly under the control of the Agency Educational Department. Though the financial condition of the State was not satisfactory in the year 1904-05, yet free education was commenced to be given to the boys and girls in these seven schools from that year and at present also free education is imparted. The particulars regarding the number of students &c is shown in Appendix XXV herewith submitted.

CHAPTER VIII.

Miscellaneous.

39. There is no printing press here and a library building is under construction.

The people of this Taluka are poor and peaceful with the exception of a few who are ready to make all sorts of mischiefs and foul deeds, hence they require to be dealt with, with stringent measuers.

In conclusion, I must respectfully beg to offer on behalf of our chief and myself our heartfelt thanks to your honour and our worthy Agent to the Governor for the kindness with which we have been treated.

I have the honour to be,
Sir,
Your most obedient Servant,

G MUSTUPHA.
Kamdar, Bajana State.

Wadhwan Camp "Arya Vidya Prakash" Printing Press.

BRANCH OF THE ROYAL ASIATIC SOCIETY

NO. 1 OF 1912-13.

From,

KHAN BAHADUR
GULAM MUSTUPHA
KAMDAR, BAJANA STATE.

To,

MAJOR C. F. HAROLD,
POLITICAL AGENT.
JHALAWAD PRANT.
WADHWAN C. STATION.

Bajana, 4th April 1913.

SIR,

I have the honour most respectfully to submit the Annual administration Report of the Bajana State for the year 1912-13.

CHAPTER I.

GENERAL AND POLITICAL.

2. This State ranks in the 4th class in the province of Kathiawar and comprises an area of 183-12 square miles and the population was of 11718 souls according to the last census of 1911. The gross revenue of this State as based on an average af past five years is Rs. 148491-5-5.

3. The annual amount of Peshkashi (Tribute) including the amount of Sukhdi is Rs. 8037-10-0 Rupees (7980/- as a tribute and Rs. 57-10-0 as Sukhdi.) and is paid at the Rajkot Agency Treasury in two instalments.

4. The present Chief Malek Shri Jiwankhanji Nasibkhanji is aged about 65 years but looks younger owing to his natural constitution and is Jat Musalman by caste. His ancestors are said to have come in this part of the country from Sindh and belong to Baluch family. Unfortunately for himself he has no heir-apparent as stated in the last year's report;

but in the hope of getting a son, he remarried about 6 months before with a girl of his own caste residing in the village of Bamroli of the Varai Taluka. He was forced to do so by his relatives and friends.

5. With the exception of the Chief's remarriage mentioned in the last para, which was not done with any kind of show no other kind of celebration has taken place duriug the year under report. But it is a matter of regret that the elder of the two widows of the late Kumar Shri Phirozkhanji by name Dhanbai having suffered illness for about a year and a half died in the month of December last at her prime of age.

While on tour of inspection your Honour was kind enongh to encamp here in Bajana from 16th to 19th December last, during which timo the State was fortunate enough to achieve a point of great importance for which, Sir, we are highly obliged to you. That point is this that one of the two widows of the chief's late brother Jorawerkhanji by name Bhanbhai was a great takrari woman and did whatever she liked against the wishes of our chief, hence the disputes had no end to our disgust. When a dispute regarding the stoppage of her Jivai allowance came before Your Honour, Your Honour was kind enough to visit the residence of the Bai and persuaded her in such a judicious manner that she came to understand her position with the chief and left off her quarrelsome habit. She seems to have become submissive since then to the great satisfaction of the chief and our joy. Thus Your Honour's stay here, though for a few days, was a matter of great welcome to us. To our good luck Mr. J. Sladen, our present worthy Agent, obliged us by specially encamping here on the 10th January last, even though he was suffering with a pain in one of his legs. He too, with pain, visited our Dispensary, Jail and the Taluka School with his usual pleasing manner. He spent some time in the school and was so kind as to distribute prizes to the boys and girls. For all this kindness we are very much thankful to him.

No other officer of the Agency visited this Taluka during the year under report. One Mr. Crump of the Bombay Natural History Society Department, on his tour of inquiry, visited Moti Majethi and Sadla of this Taluka in February last for a few days.

6. No changes in the superior establishment are made here during the year under report. But the work in the Kamdar's office being increased by degrees a new post of Naib Kamdar has been created during the last month of March. I am glad to see that all the officers of the State have

done their duties to our satisfaction, with the exception of Police Superintendent who is found unable to detect crimimal cases and he might therefore be changed.

CHAPTER II.

ADMINISTRATION AND REVENUE.

7. Regarding the Reveuue collection I most respectfully beg to state that there has been a Bhagvati system instead of cash assessment from the beginning, and as it is practical and somewhat beneficial to the State and also most suitable and agreeable to the people in general, it is kept in force without any change in its former method.

8. No waste land could be brought under cultivation during the year under report owing to the inability of the old cultivators whose resources were insufficient on account of the last famine.

As reported in the last Administration Report we had to pay more tacavi amount to many of the cutivators this year too, for the mainteuance of themselves and their bullocks and for purchasing some bullocks and seeds Since after the submission of the last year's report Rs. 25762-0-0 have been advanced to them as tacavi. It is therefore gratifying to state that all the cultivators were happy and none had to undergo any hardship during the whole year.

As stated in every year's report the people residing in the villages situated in the eastern side of Bajana are generally poor and require to be taken care of. They are mostly coolies by caste and are borrowing money every year from Banias, and as they are apt to charge an exhorbitant interest and also interest upon interest and sometimes entering false entries, they ruin them and never allow them to be out of debts. These are the facts known throughout the Province and therefore we are thinking of doing some-thing for the relief of these poor people. But to our regret no banker or bankers could come forward and set up a bank or originate any shop in this Taluka for the purpose of advancing money to needy cultivators at a cheap rate of interest. I, therefore, at last suggested to our chief Malek Shri Jivankhanji to set aside a handsome sum of money from the State treasury from this year to enable us to advance money to needy cultivators on a cheap rate of interest viz 6 per cent per annum. Though it is not allowed in our religion to charge any interest, yet as it is intended to get the sum already set aside increased, there would be no objection at all. I am now very glad to be able to say that this proposal

of mine has been willingly accepted by our Darbar Saheb, a good sum of money will, therefore, be set aside from this year for the relief of the poor cultivators and money will be advanced to them from the ensuing season.

The Settlement Department has been doing satisfactorily, though somewhat slack owing to the last famine.

CHAPTER. III.

9. The laws that are in force in this Taluka are shown in the Appendix II herewith submitted.

PROTECTION.

10. No military force of any description has been engaged in this State. The appendix III. is, therefore, kept blank.

11. The number of foot and mounted police serving in this Taluka is the same as in the past year. This and their maintenance charges are shown in appendix IV. herewith attached. The foot police men who are working in Jhananas are supplied with country swords and those who are guarding the treasury Jail and Darbar deli have been supplied with English muskets. The mounted men are given swords and lances. Their ratio to population and area is one to 81 souls and 14-7 square miles respectively.

12. The following statement show the work done by the Police during the year under report.

Year.	No. of offences committed.	No. of persons arrested.	No. of accused for trial.	No. of stolen property.	Amount of stolen property.	Amount of stolen property recovered	Remarks.
1911-12	42	52	38	31	427-15-0	218-10-0	
1912-13	41	42	28	18	1151-14-0	535-14-0	

The full particulars of the abovementioned figures have been given in Appendices V and VI.

13. With the exception of one case of dacoity and one case of murder (these are under investigation) no offence of serious nature was reported to have been committed in this State during the year under report. On the whole the work done by the Police was satisfactory. The number of

Village police is the same as was last year viz 92 in all and they were all on service tenure. Their work also was satisfactory.

CRIMINAL JUSTICE.

14. The work done by the Magistrate in this Taluka is shown in the following table.

Name of Court.	1911-12			1912-13.		
	No. of cases registered	No. of cases decided.	No. of cases under trial.	No. of cases registered	No. of coses decided.	No. of cases under trial.
First Class Magistrate.	76	68	8	83	79	4

The details are given in Appendices VII and VIII herewith submitted.

As for the appellate Court's work the particulars are given in Appendix IX herewith submitted.

CIVIL JUSTICE.

There is one civil Court of the original Jurisdiction and one that of the appellate. The Nyayadhish of the original Court hears suits upto the Value of Rs 2000, and the appellate Court has full jurisdiction namely of Rs. 10,000. There was no increase in the number of Courts during the year under report. There were 49 suits of the aggregate value of Rs. 3016-8-9 filed in this year and 7 suits were in balance. Out of these 50 suits have been disposed of. In the previous year 28 money-suits of the aggregrate value of Rs. 1315-11-0 had been filed and 39 suits in all were disposed of.

16. 23 applications for execution of decrees of the aggregate value of Rs. 2455-0-3 were made in the Court during the year under report ond 2 applications were in balance. Out of these 19 applications were disposed of.

The full particulars of the original suits and the applications for execution of decrees are shown in appendices No. X and XI respectively.

EXTRADITION.

17. There were 5 persons extradited from this State and none was extradited to it during the year under report.

PRISON.

18. There is a suitable and good ventilated building for the safe custody of prisoers in the heart of the town. It has an upper storey for the accomodation of the female prisoners, yet the Chief contemplates building a new one on a modern style in a suitable place at his convenience.

The particulars of the number of prisoners and the amount of expenditure incurred towards their maintenance during the year under report, are shown in the annexed appendix No. XIII.

There being no rain in the after season of the year, malaria fever was not in its height and no other kind of disease was amongst the prisoners during the year.

REGISTRATION.

19. 33 documents were registered in the Hazur Court during the year and the particulars thereof will be seen in appendices Nos. XIV and XV herewith submitted.

MUNICIPAL ADMINISTRATION.

20. There is no regular Municipality in the town. It is an old fashioned awkwardly and narrowly built town containing almost all kutcha mud buildings and the streets and roads are narrow and crooked. Yet with such a state of its construction, sanitation and conservancy are not neglected. A handsome sum of money is yearly expended after it by engaging a gang of sweepers etc. The particulars of this are shown in Appendix XVI herewith attached.

The inhabitants, including merchants are all in a poor condition and as the Railway communication is not at hand, no large amount of trading is going on here. Yet, since after the opening of a Ginning factory here and substantial bridge having been built across the Run some improvement is made in merchandise.

CHAPTER IV.

PRODUCTION AND DISTRIBUTION.

21. The total rain-fall during the year under report was 21′-15″ against 5′-4″ in the previous year.. Appendix XVII is herewith attached. Though the quantity of rain-fall was sufficient, it did not rain in the after season hence the grain crops had to suffer much, the production being half of the average. But thanks be, to the Almighty God that the out-turn of the cotton-crops seems to be satisfactory.

With regard to water supply I have the honour to report that it is sufficient throughout the Taluka and fodder also is plantiful throughout the Taluka.

None of the destructive insects also made their appearance this year throughout the State nor did the winter frost do any damage to the crops to our good luck.

22. The temperature was 118 degrees the highest and 50 degrees the lowest during the year. Owing to the want of rain in afterseason for a long period (it ceased raining from the beginning of October) the malarious fever did not prolong and fortunately no other kind of epidemic made its appearance in this Taluka, this year, so that the health of the people was good.

23. The condition of the labouring classes is much better than that of the middle classes as they get ample labour on high wages. Sometimes labourers could not be found to work. This is due to the Kharagodha salt works which is at hand and nearly all the coolies manufacture salt there.

The prices of the staple food are nearly the same as last year as is shewn in the appendix XVIII. annexed herewith. The prices of all kinds of grain though somewhat cheaper this year than the previous one, it is a nominal cheapness.

24. There is no forest in this Taluka.

25. There being no Railway sommunication here nor at any big village of the State trade of any importance is not carried on here in consequence of which it is impossible to give here any figures regarding the same.

26. Besides repairing all the State buildings a house with six rooms has been added this year for the residence of the State servants. No other building could be made owing to the last famine. Appendix XIX herewith sumitted shows the expenditure incurred in the abovementioned works. But it is a matter to be rejoiced at that our old Rani Saheb Bai Shri Waghelibai Saheb has constructed at her own expense a very good and sufficiently large, Dharmashala in a good locality.

27. There a branch office here and a sub-branch office in the village of Akhiana.

28. There is no mint in this State. British coins are current throughout the Taluka.

29. The general condition of the people throughout the Taluka was on the whole good during the year under report.

30. As for the liabilities of the State, I have the honour to report that since after the last year's report Rs. 10,872-0-0 have been paid off during this year to those creditors with whom negotiations have been entered upon to the effect that they would get their money by yearly instalments. With this fact there remains only Rs. 17,900-0-0 to be paid to them. Besides the above sum, the State is a debtor to one Jibhai Keval of Viramgam whose decretal amount is of Rs. 14,957-0-2, but this decree being prejudicial to the State, an appeal to the State Secretary has been preferred. It will thus be seen, Sir, that this State has a nominal amount of debt to be paid.

The amount of Government tribute and that of the general falo are paid regularly at the fixed period to the Agency treasurer and the State Servants are also paid their salaries every month. It will thus be noticed. Sir, that the administration of the State has been fully satisfactory and has reached to a higher standard.

31. The general condition of the cultivators has been good. Those who are in poor and cannot afford are looked after by the State and supplied with tacavi advances.

32. There is no liquor shop in the state- In a Bhayati village of Savlas, a man distils liquor in a small quantity and specially on high holi-days.

There is a shop of opium in the town of Bajana itself, the particulars of this are shown in appendix XXI herewith submitted.

CHAPTER V

REVENUE AND FINANCE.

33. The gross revenue for the year ending the last Divali (upto 31st October) is of Rs. 48,913-13-8 as against Rs. 2,36,040-2-8 in the previous year. The decrease is due to the famine.

The following table shows that the Vaje amount is nominal and no Vero is charged altogether this year.

Year.	Vaje.	Vero.	Sakar.	Outstanding.
1911-12	163344-14-11	14285-5-6	8219-0-0	4541-5-8
1912-13	5664—7—4	25-2-0	2835-0-0	4-0-0

CHAPTER VI.

VITAL STATISTICS.

34. There is a dispensary in the town of Bajana named after the former Political Agent Major Wodehouse. The working of the Dispensary together with the expenditure incurred towards its maintenance &c, during the year under report is shown below, as well as in the subjoined appendix No- XXIII. Great care is taken for the sanitation of the people in general.

Year.	Indoor patients.	Outdoor patients.	Expenditure.
1911-12	...	2857	641—9—1
1912-13	...	2749	1008—7—0

35. The vaccination work is done by the Agency Vaccnition Deprt. ment. The following statement shows the work done by it during the year under report. The figures shown in this statement are supplied by the department concerned every year.

Year.	Primary vaccination	Re-vaccination.	Successful vaccination.	Unsuccessful vaccination	Expenditure.
1911-12	444	...	444	...	98—3—11
1912-13	321	...	321	...	129—8—2

36. The total number of births during the year under report was 480 as against 417 in rhe previous year, and that of the deaths was 541 as as against 192 in rhe previous year. The increase in the deaths is due to some unknown disease to chidren of tender ages this year.

37. Through the kindness of the Almighty God, the Taluka was altogether free from any kind of epidemic such as cholera, plague etc, throughout the year under report.

CHAPTER VII.

EDUCATION.

38. There are seven Vernacular Schools in the Taluka including the Girls' Sahool at Bajana. Out of these here is one Taluka School where boys are taught upto sevnth standard Gujarati and is directly under the control of the Agency Educational Department, Since the 1904-1905 education is given free in all these seven schools. Besides these, there is a madresa where our Kuran is taught to the boys and girls and the expense is borne by the old Ranee Saheb of our chief Malek Shri Jivankhanji.

The particulars regarding the number of students and the expenditure thereof are given in appendix XXV herewith submitted.

CHAPTER VIII.

MISCELLANEOUS

39. There is no printing press in this Taluka. A library whioh was under construction last year has been completed at the expense of the State and opened to the public.

The people of this Taluka, with the exception of a few, are poor in condition but peaceful. It is gratifying to note that the Jat people of this Taluka who were notorious for criminal offences in former years are improving every year and it is also gratifying to state that many of them have not only left off their bad habits of committing thefts and robberies but have redeemed their lands, already mortgaged, by dint of labour and are now engaged in cultivation.

In conclusion I most humbly and respectfully beg to state that during the last seven years the State of Bajana has made vast improvements in its administration in all its branches. It has not only raised its revenue judiciously that is without imposing any new tax on the people and changes in the Bhagvati system to nearly two lacs of rupees and having paid an enormous sum of debts including Government liabilities i. e. upwards of rupees four lacs and a half, it has saved more than a lac and a half during this comparatively small period of 7 years. And owing to the above-mentioned saving the State could look after the wants of not only ordinary people but the Bhayats and the Mul-girasias to the satisfaction of the Agency

Officers during the last famine without borrowing a single rupee from any one. Besides this it has supplied the want of public works to the best of its ability and improved all its branches of administration including police and the justice. The relatives of the Bhayats etc have also been brought to a satisfactory condition and in short this State has been working now on level with a most improved State in this province and deserves in every way to be promoted to the 3rd class status. At the same time I most respectfully beg to offer on behalf of our chief Malek Shri Jivankhanji and myself our warm and heart-felt thanks to Your Honour and our worthy Agent to the Governor for the kindness with which we have been treated throughout the year.

I have the honour to be

Sir,

Your most obedient servant.

G. MUSTUPHA.

Kamdar, Bajana State.

Wadhwan Camp—"Arya Vidya Prakash" Printing Press.

ROY. LIBRARY OF THE BOMBAY BRANCH OF THE ASIATIC SOCIETY

NO. 1 OF 1913-14.

From,

KHAN BAHADUR
GULAM MUSTUPHA
KAMDAR, BAJANA STATE.

To,

LIEUTENANT COLONEL
J. R. CARTER
POLITICAL AGENT,
JHALAWAD PRANT.
WADHWAN CIVIL STATION.

Bajana 9th April 1914.

SIR,

I have the honour respectfully to submit the annual administration Report of the Bajana State for the year 1913—14.

CHAPTER I.

GENERAL AND POLITICAL.

2 This State ranks in the 4th class in the province of Kathiawar and comprises an area of 183.12 square miles and the population is of 11718 souls according to the last census of 1911. The gross revenue of this state as based on an average of past five years is Rs. 156160-12-2.

3. The annual amount of Peshkashi (tribute) including the amount of Sukhdi is Rs 8037-10-0 (Rs. 7980 as a tribute and Rs. 57-10-0 as Sukhdi) and is paid at the Rajkot Agency treasury in two instalments.

4. The present Chief Malek Shri Jivankhanji Nasibkhanji is aged about 66 years but looks younger owing to his natural constitution and is Jat Musalman by caste. His ancestors are said to have come in this part of the country from Sindh and belong to Baluch family. Unfortunately for himself he has no heir-apparent. After the death of his grown up Kumar

Phirojkhanji in the year 1910, he, the chief, was made to remarry, as stated in the last year's report, in the hope of getting a son and this hope being fulfilled every one in the state became overjoyed. But unfortunately the rejoicing was for a few hours as the child having born feebly died the next morning, i. e. on the 17th December 1913.

5. During the year under report neither marriage nor any other kind of ceremony had to be performed. But a better happiness has been achieved than the celebration of any merry party; that is to say, a dispute regarding the case of ornaments was going on for years with Bai Bhanbhai one of the 2 widows of Malek Joraverkhanji to the disgust of the Agency Officers and loss of money to both the parties; this came to an end during the year under report purely by the judicious interference of our worthy Agent Mr. Sladen.

While on tour of inspection your Honour was kind enough to encamp in Bajana from the 1st to the 4th of February 1914. During the time you were so good as to pay a return visit to our Durbar Sahib and visited Wodehouse Dispensary, the Jail and Taluka school where you kindly distributed prizes to the boys and girls for which we are thankful to you Sir. The Judicial Assistant Mr. L. Graham was also pleased to stay for a day at Moti Majethi on his way towards Patri and for a day at Bajana on his way to Vithalgadh in December 1913. No other officer of the Agency visited this place during the year under report.

6. The Police Superintendent of the state Mr. Malek Dosoo having resigned his post a new man Mahmad Mia by name has been engaged. No other change has taken place in the superior Establishment of the state during the year under report. To the entire satisfaction of the chief and the undersigned all the officers have done their duties well and with great care.

CHAPTER II.

ADMINISTRATION & REVENUE.

7. As for the collection of the State Revenue, I most respectfully beg to state that the Bhangvati system has been in force from the beginning instead of cash assessment and as it is suitable and most agreeable to the people and the State, there seems no necessity to change the method.

8. Although no large area of waste land has been brought under cultivation in the year under report. It is, however, given for cultivation bit by bit every year with special concessions to the cultivators. Some of the cultivators are looked after every year owing to their poor condition. Hence it is a matter to be gratified that none of the cultivators had to undergo any hardship of whatever description.

The settlement Department has been working though slowly yet satisfactorily.

CHAPTER III.

9. The appendix II, herewith submitted, will show the laws that are in force in this State.

PROTECTION.

10. There is no military force in this Taluka, and hence the appendix III is kept blank.

11. The number of foot police serving in this Taluka is the same as was the last year. The mounted men having seemed insufficient, one man is added during the year under report. The maintenance charges for these men are shown in the accompanying appendix IV. The men who are posted in Thanas have been supplied with the country swords and those who are guarding treasury, jail etc. have been provided with English muskets. The mounted police have swords and lances. Their ratio to population and area is 1 to 81 souls and 14-7 square miles respectively.

12. The following statement will show the work done by the police during the year under report.

Year.	No. of offences committed	No. of persons arrested.	No. of accused for trial.	No. of accused convicted.	Amount of stolen property.	Amount of stolen property recovered	Remarks.
1912-13	41	42	28	18	1151-14-0	535-14-0	
1913-14	36	43	43	37	566-12-6	544-12-6	

The particulars of the above mentioned figures have been given in appendices V and VI.

13. No offence of serious nature is reported to have been committed in this State during the year under report. On the whole the work done by the Police was satisfactory. The number of village police is the same as was last year viz 92 in all and they were on service tenure. They have also worked satisfactorily.

CRIMINAL JUSTICE.

14. The following table will show the work done by the Magistrate in this Taluka during the year.

Name of Court.	1912-13.			1913-14.		
	No. of cases registered	No. of cases decided.	No. of cases under trial.	No. of cases registered	No. of cases decided.	No. of cases under trial.
First Class Magistrate	83	79	4	97	91	6

The particular details of these are given in appendices VII and VIII herewith submitted.

As for the appellate court's work, the particulars are given in Appendix IX herewith attached.

CIVIL JUSTICE.

15. There is one civil court of the original jurisdiction and one of the appellate. The Nyayadhish of the original court hears suits upto the value of Rs. 2000, and the appellate court has full jurisdiction namely of Rs. 10,000. There was no increase in the number of courts during the year under report. There were 239 suits of the aggregate value of Rs. 11785-1-10 filed in this year and 6 cases were in balance. Out of these 228 have been disposed of. In the previous year 49 money suits of the aggregate value of Rs. 3016-8-9 had been filed and 50 suits in all were disposed of.

16. 81 applications for execution of decrees of the aggregate value of Rs. 7110-9-4½ were made in the court during the year under report and 6 applications were in balance. Out of these 67 applications were disposed of.

The full particulars of the original suits and the applications for the execution of decrees are shown in the accompanying appendices No X and XI respectively.

EXTRADITION.

17. There was one person extradited from this state and none was extradited to it during the year under report.

PRISON.

18. There is a suitable and good ventilated building for the safe custody of prisoners here in the heart of the town. It has an upper story also for the accomodation of the female prisoners.

The particulars of the number of prisoners and the amount of expenditure incurred towards their maintenance during the year under report, are shown in the annexed appendix No. XIII.

Owing to the heavy rain that fell during the last rainy season, the malarial fever was at its height this year, but thanks be to the Almighty God that the result was not bad and no other kind of epidemic was amongst the prisoners during the year.

REGISTRATION.

19. There were 44 documents brought for registration in the Hazur Court during the year under report. The particulars thereof will be seen in appendices No. XIV and XV herewith submitted.

MUNICIPAL ADMINISTRATION.

20. There is no regular municipality in this town. It is an old fashioned awkwardly and narrowly built town. Almost all the buildings of the general public are made of mud and the roads and the streets are narrow and crooked. With such a state of its construction sanitation and conservancy of the town are not neglected. A handsome sum of money is yearly expended towards this by engaging a gang of sweepers permanently. The particulars of this will be seen in appendix XVI herewith submitted.

The merchants here are all in a poor condition and would, it is anticipated, remain in the same condition; for, the Railway communication not being at hand, they could not carry on trades on a large scale. It was conjectured that the opening of a Ginning factory here and the construction of a bridge over the Runn, the condition of the tradesmen would be somewhat improved but this hope has been frustrated. Yet the bridge has become a great boon to the outsiders who carry away their merchandise to the Patri Railway Station with great ease & happiness.

CHAPTER IV.

PRODUCTION & DISTRIBUTION.

21. The total rain-fall during the year under report was 22"-56" against 21"-15" in the previous year. Appendix XVII is herewith attached. Although this figure cannot be said to indicate a heavy rain yet it is wonderfully proved to be such a heavy one as had not fallen for years in this District. It was therefore, thought that the grain crops would be much more than in previous years. But the Almighty God willed otherwise as in the commencement of the season a kind of insect called Khapedi came on in lots and ate away a large quantity of grain. It is however to be gratified that at the end, the people did get nearly half of the quantity of grain they usually got; but thanks to the Almighty God that the outturn of the cotton crops seems to have been satisfactory this year.

As for water supply I have the honour to report that it is sufficient throughout the Taluka and the same is the case for the fodder also.

As stated in the previous para of this report that though the khapedi insect did much damage to the grain crop at the beginning of the winter season yet after that period, to the good luck of the people, no more of the destructive insects made their appearance throughout the Taluka.

22. The maximum and minimum readings of the temperature were 114 and 54 degrees respectively during the year. The rain-fall being considered much more than in the previous years the malarial fever was at its height this year, but thanks be to God that no loss of life resulted therefrom. The Taluka was also free from any other kind of epidemic during the year under report and the health of general public was fairly good.

23. The condition of the labouring classes is much better than that of the middle classes as they get ample labour on high wages. Sometimes they are not available owing to the Government salt works being at hand where they generally go to work. And almost all the coolies manufacture salt there and get handsome sum of money.

The prices of the staple food are nearly the same as last year and this is shown in the appendix XVIII herewith annexed.

24 There is no forest in the Taluka.

25. No Railway communication being in this Taluka nor in any other villages of this state, trade of any importance is not carried on, in consequence of which no octroi duty is levied on such articles either on export or import; it is therefore impossible to give any figures regarding the same.

26. Besides repairing almost all the old buildings, a building for the accomodation of the imperial guests has been made along with outhouses and a very good circle environ with shades is made just opposite to the Darbar'spalace. Appendix XIX herewith submitted will show the expenditure incurred on this head.

27. There is a branch post office here in the town and a sub-branch office in the village of Akhiana.

28. There is no mint in this state. British coins are in use throughout the Taluka.

29. The condition of the people in general throughout the Taluka was on the whole good during the year.

30. With respect to the liabilities of the state I have the honour to report that upto date there remains only Rs. 6877 to be paid net to the creditors who get their money by early instalments as agreed upon by negotiations made with them some years back. About Rs. 14000 are to be paid by two instalments made by your worthy court to one by name Jibhai Keval of Viramgam. From these facts it will be seen, Sir, that this state has a nominal amount of debt to be paid.

The amount of Government tribute and that of the general falo are regularly paid at the fixed period to the Agency treasury, and the state servants are also paid their salaries every month.

31. The general condition of the cultivators is good. Those who are poor and can not afford are looked after by the state by giving tacavi and supplying seeds &c.

32. There is no liquor shop in the state, but in a Bhayati village of Savlas a man distils liquor in a small quantity specially in holidays.

There is a shop of opium in the town of Bajana, the particulars of this are shown in the appendix XXI herewith submitted.

CHAPTER V.

REVENUE AND FINANCE.

33. The gross revenue for the year ending the last Diwali (upto 31st of October) is of Rs. 155547-12-1 as against Rs. 48913-13-8 in the previous year, it being a famine year.

The following table shows the particulars thereof.

Year.	Vaje.	Vero.	Sakar.	Outstanding.
1912—13	5664—7-4	25-2-0	2835-0-0	4—0—0
1913—14	106718-14-2	14292-2-3	4295-0-0	1012-10-2

CHAPTER VI.

VITAL STATISTICS.

34. There is a Dispensary in the town of Bajana named after the former Political Agent Major Wodehouse. The working of the dispensary and the expenditure incurred towards its maintenance &c during the year under report is shown below and in the appendix No. XXIII. Due care is taken for the sanitation of the people in general.

Year.	Indoor-patients.	Outdoor patients.	Expenditure.
1912-13	...	2749	1008-7-0
1913-14	...	3409	1078-7-2

35. The vaccination work is done by the Agency Vaccination Department. The following statement shows the work done by this Department during the year under report. These figures are supplied to us by this Department every year.

Year.	Primary vaccination.	Re-vaccination.	Successful vaccination	Unsuccessful vaccination.	Expenditure.
1912-13	321	...	321	...	129—8-2
1913-14	466	...	466	...	127-14-0

36. The total nnmber of birth during the year under report was 403 as against 480 in the previous year, and that of the death was 343 as against 541 in the previous year. The decrease in the deaths is due to there being no disease to children of tender ages this year.

37. By the favour of the Almighty God, the Taluka was free from any kind of epidemic such as plague, cholera &e &c, throughout the year under report.

CHAPTER VII.

EDUCATION.

38. There are seven Vernacular schools in this Taluka including the Girl school at Bajana. Out of these, one is a Taluka school where boys are taught upto seventh standard in Gujarati and is directly under the control of the Agency Educational Department. Since the year 1904-05 education is made free in all these seven schools by our Darbar Saheb. There is also a Madresa where Kooran is taught to the boys and girls at the expense of the old Rani Saheb of our Chief Malek Shree Jivankhanji Saheb.

The particulars regarding the number of students in all these schools and the expenditure incurred thereon are given in the appendix XXV herewith submitted.

CHAPTER VIII.

MISCELLANEOUS.

39. There is no printing press in this Taluka and a library at the expense of the state has been opened for the last two years and it is open to the public.

The people of this Taluka are poor and peaceful with the exception of a few who are apt to make all sorts of mischief and foul deeds; but thanks be to God that their numbers are decreasing day by day. Also it is gratifying to note that the Jat people in this Taluka who were notorious for criminal offences in former years are improving. Some of them have already redeemed their lands which had been mortgaged and are engaged in cultivation.

In conclusion, I most respectfully beg to state that the Administration of this Taluka has been improved in every way to the satisfaction of the Agency officers and deserves encouragement as reported in the concluding para of the last year's report. If therefore our most worthy Agent to the Governor (your good Sir being quite new here) will be graciously pleased to reconsider the claim made therein about the increase of status we shall highly be obliged.

I, at the same time, beg most respectfully to offer on behalf of our chief Malek Shri Jivankhanji and myself our heart-felt and warm thanks to your Honour and to our worthy Agent to the Governor for the kindness with which we have been treated in general.

I have the honour to be,

Sir,

Your most obedient servant,

G. MUSTUPHA.

Kamdar, Bajana State.

Wadhwan Camp—"Arya Vidya Prakash" Printing Press.

BOMBAY BRANCH OF THE ROYAL ASIATIC SOC

NO. 1 OF 1915--16

From,

KHAN BAHADUR

GULAM MUSTUPHA

Kamdar Bajana State.

To,

Esq.

W. C. TUDOR OWEN, I. C. S.

POLITICAL AGENT

Jhalawad Prant.

Wadhwan Civil Station.

Bajana 5th April 1915.

Sir,

I have the honour respectfully to submit the annual administration report of the Bajana State for the year 1914-15.

CHAPTER I.

General and Political.

2. This State ranks in the 4th Class in the province of Kathiawar and comprises an area of 183·12 square miles and the population is of 11716 souls according to the last census of 1911. The gross revenue of this State as based on an average of passed five years is Rs. 165272-7-7.

3. The annual amount of Peshkashi (tribute) including the amount of Sukhdi is Rs. 8037-10-0 (Rs. 7980 as the tribute and Rs. 57-10-0 as Sukhdi) and is paid at the Agency treasury at Rajkot in two instalments.

4. The present Chief of this State Malek Shri Jivankhanji Nasibkhanji is of about 67 years of age but by the grace of God looks younger, his constitution being of such a nature and is Jat Musalman by caste. There is no such a caste as Jat throughout India among the Musalmans and hence some are at a loss to understand the word Jat; it is, therefore necessary to explain it. Originally they are Baluch by caste of Sind whence their ancestors came to this Province. While in Sind they resided in the Jati Taluka in consequence of which they are styled Jat, just as,

a native of Gujarat is called Gujarati and a native of Sind is called Sindi and so on. From these facts it is apparent that they are really Baluchees. Unfortunately for himself he has no heir-apparent, he having lost his sons as shown in the last year's report.

5. No marriage ceremony or any other rejoicing took place here during the year under report.

While on tour of inspection your good sir was kind enough to visit our town of Bajana and during your stay here from the 9th to 11th February 1915 your good sir was so kind as to pay a return visit to our Darbar saheb and also visited the Wodehouse Dispensary and the State Jail and while visiting the Taluká School here your good sir attended the gathering of the distribution of prizes to the boys and girls of this school and that of girl's school by our worthy Mrs. Tudor Owen.

Mr. Graham the Judicial Assistant to the Agent to the Governor has been good enough to visit our village Moti majethi for a day only on his way to Patdi. No other Agency Officer visited this Talukà during this year.

6. No changes were made in the superior establishment here during the year under report and it is satisfactory to note that all the officers did their work with zeal and integrity.

CHAPTER II.

Administration & Revenue.

7. Regarding the revenue collection of this state, I respectfully beg to state that the Bhagvati system has been in force from the beginning and this being suitable and most agreeable to the cultivators as well as to the state, there seems no necessity of changing this method.

8. It is satisfactory to state that out of the waste lands, lying in some of the villages of this Taluká on the East of Bajana since the dire famine of Chhapania, is being brought in to cultivation bit by bit every year by a special concession to the cultivators who are not so prosperous as their brothern are in the Westward villages. These cultivators and those others whose resources are not sufficient get advances of money for purchasing bullocks, seeds &c from the state Fund which has been set aside as stated in the administration report of 1912-13. It will thus be seen, sir, that none of our cultivators are to undergo any hardship in money matter.

The work of the Settlement Department is going on quietly and satisfactorily.

CHAPTER III.

9. The laws which are in force in this Taluká are shown in the appendix II here with submitted.

Protection.

10. No military forces of any description has been engaged in this State; the appendix no III is therefore kept blank.

11. The number of foot and mounted police serving in this Taluka is the same as in the past year.
The maintenance charges of these man are shown in the accompanying appendix no IV. The foot police men who are placed in Thanas are supplied with country swords and those who are guarding treasury, jail and Darbari Mehels have been provided with English muskets. The mounted men have swords and lances. Their ratis to population and area is 1 to 81 souls and 14 7 square miles respectively.

12. The work done by the Police department during the year under report will be seen from the following statement.

Year.	No. of offences committed	No. of persons arrested.	No. of accused for trial.	No. of accused convicted	Amt. of stolen property.	Amt. of stolen property recovered	Remarks.
1913-14	36	43	43	37	566-12-6	544-12-6	
1914-15	45	47	47	39	1189-9-9	925—4-6	

The particulars of the adove-mentioned figures have been given in appendices V and VI herewith submitted.

13. It is a matter to be rejoiced that no offence of any serious nature is reported to have been committed in the limit of this Taluka during the year under report; but it is to be regreted to find that some Badmashee coolees inhabitants of foreign territories have been addicted to set fire or do any other harms either to the State property or to that of the villages in case of their wives having deserted them for one thing or other. They consider that by doing harm to others their wives will either be made to go to them or will get some retaliation—their detection being impossible. Last year, that is, during the year under report a big grass stake (ganjee) of the State in Degam Beed containing about 4½ lacs of bundles is burnt away by some one at night and no one has been detected as yet.

On the whole the work done by the police was satisfactory. The village police also, the number of which is the same as last year viz 92 men, worked satisfactorily. They are all on service tenure as usual.

Criminal Justice.

14. The work done by the Magistrate here during the year under report has been shown in the following statement.

Name of the court.	1913-14.			1914 15.			Remarks.
	No of cases register-ed	No. of cases decided	No. of cases under trial.	No. of cases register-ed.	No. of cases decided.	No. of cases under trial.	
First class magistrate.	97	91	6	94	88	6	

The particulars of these cases are given in the appendices VII and VIII herewith submitted.

The particulars of the appellate court's work for the year under report are shown in the appendix no IX herewith submitted.

Civil Justice.

15. There is one civil court of the original jurisdiction and one that of the appellate. The Nyayadhish of the original court hears suits upto the value of Rs. 2000, and the appellate court has full jurisdiction namely Rs. 10,000. There was no increase in the number of courts during the year under report. There were 195 suits of the aggregate value of Rs. 8737-2-9 filed in this year and 17 suits were in balance Out of these 192 suits have been disposed of. In the previous year 239 money suits of the agreggate value of Rs. 11785-1-10 had been filed and 228 suits in all were disposed of.

16. 90 applications for execution of decrees of the aggregate value of Rs. 3720-13-0 were made in the court during the year under report and 6 applications were in the balance. Out of these 80 applications were disposed of.

The full particulars of the original suits and the applications for the execution of decrees are shown in the accompanying appendices nos. X and XI respectively.

Extradition.

17. No case of extradition either to or from this state took place during this year.

Prison.

18. There is a suitable and good ventilated building for the safe custody of prisoners in the centre of the town here-with an upper storey for the accomodation of the female prisoners.

The particulars of the number of prisoners and the amount of expenditure incurred towards their maintenance during the year under report are shown in the annexed appendix No XIII.

Though there was a good rain-fall malaria fever was not serious this year and thanks to God that no other kind of epidemic was amongst the prisoners during this year.

Registration.

19. There were 71 documents presented for registration in the Hazur Corut during the year under report. The required particulars thereof are given in the Appendices Nos. XIV and XV herewith submitted.

Municipal Administration.

20. There is no regular Municipality in this town. It is an old fashioned narrowly and awkwardly built town. With the exception of very few buildings all are made of mud. Those who are well-to-do are puisuaded, to build their buildings (of course at the time of their re-building or repairing their houses) with pucká bricks and chunam on a fashionable style. It is therefore hoped that after a long time the town will somewhat improve. Although the roads are narrow and crooked, the sanitation and conservancy of the town is not neglected. A suitable sum of money is yearly expended towards the engagement of a gang of Bhangees permanently. The detailed particulars of this will be seen in appendix no XVI herewith submitted.

The merchants of this town as well as of the villages of this Taluka seem to be of not an enterprizing character. They deal though in every merchandise, yet they seem to be affraid to deal with in large quantities as if they would be loosers. They buy and sell things bit by bit notwithstanding the state being ready to afford them the fecilities according to its means and capacity. But since after the opening of a ginning factory here, somewhat of their condition seems to have been improved. The Bridge over the great Runn has become a great boon to the general public.

CHAPTER IV.

Production and Distribution.

21. The total rain-fall during the year under report was 22'-8" against 22'-56" in the previous year. Appendix XVII is herewith submitted. Although this quantity of rain was quite sufficient yet it did not do good to the grain crops owing to the peculiar nature of the wind that blew in those days, the production of all kinds of grain was half of the average. As for the cotton crop, it is proved to be more satisfactory than wished for but unfortunately for us, the weather later on remained, cloudy for a considerable period and it rained occasionally so the outturn has been reduced to 12 to 14 annas in a rupee.

With regard to water supply I have the honour to report that by the grace of God it is sufficient throughout the Taluka and the fodder also has been plentiful this year.

No other destructive insects made their appearance in this Taluka this year, yet the production of grain of all kinds and that of the cotton-pods suffered much as stated above.

22. The temperature is 116 degrees the highest and 52 degrees the lowest this year.

The rain-fall though sufficient the malaria fever was not as high as usual and the Taluka was fortunately free from any kind of epidemic during the year under report. The health of the general public was fairly good

23. The condition of the labouring classes is much better than that of the persons of the middle classes as they get much work on high wages since the opening of a Ginning Factory here. Almost all the coolees of this town manufacture salt in the Kharagodha salt works which are very near to this place and earn money more than their wants. In short they are happier than the men of middle classes.

The prices of the staple food were high for the most part of the year but later on though they were reduced, now they are a little higher than last year.

24. There is no Forest in this Talukà.

25. No trade of any importance is carried on in this Talukà owing to the want of enterprizing nature of the merchants here and also for the Railway communication not being at hand; and in consequence of which no octroi duty is levied on such articles either on export or import and hence figures regarding the same cannot be given here.

26. No new building is added in the town this year but a monument *i.e.* an architectural dome over the tombs of the late Chief Nasibkhanji and that of the late Prince Perozkhanji is under construction. The work is given on a contract and will cost nearly seven thousand rupees. The appendix XIX herewith attached shows the amount expended on this head.

27. There is a branch post office here in the town and a sub-branch office in the village of Akhiana.

28. There is no mint in this Taluká British coins are used throughout the Taluká.

29. The general condition of the people throughout the Taluka was on the whole good during the year under report.

30. It is a matter to be greatly rejoiced that this state which was under heavy debts and the liquidation of which was seemed and deemed impossible even by the Chief himself at least for years to come, has now become, by the grace of the Almighty God, free altogether from it, comparatively in a small period. It was justly speaking considered to have been free from the debts since 1910 but the two cases in the civil courts of the Agency being pending and some instalments, which were made with private debtors being paid, it was not thought to be wholly free from the debt till now. But thanks be to God that it now became entirely free from debts.

The amount of Government tribute and that of the general falo are paid regularly at the fixed period to the Agency Treasury and the state servants also get their pay regularly every month. At the same time the jiwaidars too, get their allowances every month together with the merchants who are dealing with the state. It will thus be seen, sir, that this state has been placed entirely on a prosperous condition.

31. The general condition of the cultivators of the state is good and advances are made to those who are in want of money by the state from time to time.

32. There is no liquor shop in this Taluká. In a Bhayati village of savlas there was a woman who used to distil liquor and sell it on a small quantity especially on Holidays, but our Darbar Saheb being opposed to this, the woman has been prohibited to distil and sell it altogether for the last two or three months.

There is a shop of opium in this town, the particulars of this are hown in the appendix no. XXI herewith submitted.

CHAPTER V.

Revenue and Finance.

33. The gross revenue for the year ending the last Diwali (upto 31st October 1914) is of Rs. 191108-15-2 as against Rs. 155547-12-1 in the previous year.

The following table shows the particulars of the chief revenue.

year.	Vaje	Vero	Saker.	Outstanding.
1913-14	106718-14-2	14292-2-3	4295	1012-1-02
1914-15	131672-13-0	13511-15-4	6982	2740-10-0

CHAPTER VI.

Vital Statistic.

34. There is a dispensary in the town of Bajana. It is named after our kind former Political Agent Jhalawad Prant Major Wodehouse. The working of this institution and the expenditure incurred towards its maintenance during the year under report is shown below and also in appendix XXIII.

Great care is taken towards the sanitation of the people.

Year.	Indoor.	Out-door.	Expenditure.
1913-14	...	3409	1078-7-2
1914-15	...	2746	669-9-0

35 The vaccination is done by the Agency Vaccination Department. The following statement shows the work done by this Department during the year under report. The figures are supplied by the said Department.

Year.	Primary vaccination.	Re-vaccination.	Successful vaccination.	Unsuccessful vaccination.	Expenditure.
1913-14	466	...	466	...	127-14-0
1914-15	467	...	437	...	137—3-1

36. The total number of birth during the year under report was 525 as against 403 in the previous year and that of death was 278 as against 343 in the previous year.

37. We are very much thankful to the Almighty God for the non-appearance of any kind of epidemic such as plague, cholera, etc etc in this Taluka during the whole year.

CHAPTER VII.

Education.

38. There are seven vernacular schools in this Taluka including a girl school at Bajana. But of these one is a Taluka school where boys are taught upto seventh standard in Gujarati and has been under the direct control of Agency Educational Department. From the year 1904-05 education is given free of charge in all these schools at the desire of our present Chief Malek Shri Jivankhanji; and our Rani Saheb has, at her own, expense, opened a Madressá where Kuran is taught to the boys and girls.

The particulars as to the number of students in all these seven schools and the expenditure defrayed therein are shown in appendix no XXV herewith attached.

CHAPTER VIII.

Miscellaneous.

39. There is no printing press in this state. A library has been opened here for the last 3 years where local papers only are invited at the expense of the state and is open to the general public.

The majority of the people of this Taluka seem to be poor in the condition and peaceful. Yet the Taluká was considered and called a mischievous and Khatpatia one in former years throughout the Kathiawar province even by the Agency Officers owing to the selfish and Khatpatia nature of some badmashes. But thanks be to God that this disgraceful

slur has been altogether effaced out for the last 5 or 6 years, the number of the mischievous and the Badmashees being decreased. It is also gratifying to report that the Jats of this Taluka who were troubling the people by their criminal habits, have now been much improved and the offences are rare on their part. Many Jats have redeemed their lands which had been mortgaged and are cultivating their fields peacefully.

In conclusion, I most respectfully and humbly beg to state that since after the succession to his father's Gadi our present Chief Malek Shri Jivankhanji has done his best towards the improvement of the state administration in all its branches. He has increased the state revenue without impossing any extra taxes on the people, paid off heavy debt that was incurred in his father's time and could same a handsome sum of money which enable him to look after not only the wants of his subjects during the last famine but advanced an enormous sum to all his Bhayat's and mulgirassias to the satisfaction of the Agency officers without borrowing a single pie from any one.

At the same time the relations of the Bhayats and the mulgirassias with the state have been brought to the peaceful and wholly satisfactory condition. In short the general administration of the state and all other affairs of this Talukà are so peacefully and quietly worked as to give no cause of complaint and can safely be said to the working on a level of the most improved states in this province; the Talukà therefore justly deserves encouragement and with all these facts. I with due deference, most respectfully beg to request your Honour to be graciously pleased to recommend it for the increase of its status from the 4th to the 3rd class.

In closing this report I cannot help offering, most respectfully, on behalf of our Chief Malek Jivankharji and myself our heartfelt, warm and most sincere thanks to Your Honour, the former Political Agents of this Prant and the worthy Agent to the Governor Mr. Sladen for the kindness with which we have been treated.

I have the honour to be

Sir,

Your most obedient servant.

G. Mustuhpa.

Kamdar, Bajana State.
